1. The following is an examiner's statement of reasons for allowance: Prior art does not disclose torque generating apparatus with brushless dc motor design optimized for operation at voltage V_s , dc motor being responsive power at said voltage V_s by achieving speed/torque combinations falling on a speed/torque profile defining optimal operation of motor, motor further adapted to achieve speed/torque combinations not falling on speed/torque profile by operating alternate voltage V_a , dc/dc converter connected to dc power source and adapted to convert dc power at voltage V_s to DC power at an alternate voltage V_a , switch adapted to put dc motor selectively into communication with either dc power source or dc/dc converter .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
